

Pigs

Pigs are farm animals. They are pink. They oink. Pigs live in the mud so people think they stink. This is not really true. Pigs need mud. They put it on their skin so they do not get burned. Like people, pigs have eyes that blink. I don't think they can use their eyes to wink though. Pigs live in groups. On a farm, they live in a pen or rink. Pigs drink water. They eat mostly grasses and fruits. Pigs have brains so they can think.
