

Fire Safety

Fire safety is no joke. Make sure that your family is safe. Every house should have a smoke alarm. It will make a loud noise. That tells you there is smoke in the house. You can leave right away. You must make sure the smoke alarm works. A firefighter spoke about this example. A man woke up. Smoke in his room was making him choke. He went to poke the smoke alarm. Then, he remembered that he broke it. The smoke alarm had been going off when he cooked. Now he knew that he should not have broken it. He quickly left the house. He was safe! He called 911. But he was lucky. He should not have broken his smoke alarm. He would have woken up sooner.
