

Weeds

Weeds are plants that grow in your garden that you do not want. When you water your grass or flowers, you feed weeds too. It is hard to get rid of weeds. You need to pull them up from the root. You need to pull each one by itself. It is hard to do this work at a fast speed. Some weeds are very hard to pull out. Pulling weeds can hurt your hands. You should wear gloves. This way pulling weeds will not make you bleed.
