

Transportation

There are many ways to get places. You may go by car or bus. You may go by train, boat, or airplane. If you go by car or bus, you may travel on a highway. You may park in a driveway. If you go by boat, you may set out from a bay in the sea. If you go by airplane, you will travel on a runway before you get into the sky. Any way that you go, you have to pay. It is not free. People travel every day of the week. They go to school or work Monday through Friday. On the weekend, they like to go and play. Some people do not like to travel. They like to stay at home instead.
